

I'm Always Ready (Song 1)

Whatever's making headlines
Whatever's going on in the world outside
Yeah ya keep it coming on time
Ya keep me in the know anywhere I gotta go
From the morning to the late night
You get me updated on the latest thing
And as long as you're within my reach
Yeah ya give me everything I need...

I'm always ready
Anytime anywhere
I'm always ready
And when I need to know you're right there
From the way this world keeps changin
To the latest news that's breakin
I know right now as long as I've got you with me
I'm always ready...

What's the weather doing right now
Is it sunny or rainy what's the temp outside
How's traffic on the inbound?
You make it so easy for the day ahead
From the edges to the downtown
I know you've got me covered anywhere I am
And no matter what time of day
I know I'm gonna be ok

I know you got me covered
Everywhere I am
One look at my phone and I'm good to go
No matter whatever I plan
[Breakdown]
I'm always ready
Anytime anywhere
I'm always ready
Cause I know you're gonna be right there

I'm always ready
Anytime anywhere
I'm always ready
And when I need to know you're right there
From the way this world keeps changin
To the latest news that's breakin
I know right now as long as I've got you with me
I'm always ready
Anytime anywhere
I'm always ready
And when I need to know you're right there
From the way this world keeps changin
To the latest news that's breakin
I know right now as long as I've got you with me
I'm always ready...

I'm Always Ready (Song 2)

Doesn't matter when or the place I'm in, when it's happening
You're with me every night and day
What's the latest news, is the weather right, what's the drive in like
You let me know it right away....

And I know, and I know, yeah I know with everything that's going on
That you're giving me all I need to keep my world moving along
I'm in the know from when I wake into the late night
Cause I've got everything I need when you're by my side....

Every minute every day I'm in, what where or when, You fill me in
And I'm always ready... Yeah I'm always ready
From the morning through the day and night
You catch me up, when where or what
And I'm always ready... Yeah I'm always ready
Ready with me everywhere
Love the way you take me there...

Is it nice outside, are the markets right
what's the word tonight
It's 2-4-7 everyday...
When I need to know, I always know I can count on you
Cause you're always just a touch away...

And I know, and I know, yeah I know that as my day's moving along
I've got what I need, within my reach every time I turn you on
You keeping me caught up on everything real that matters
And I know I can count on you for all the answers....

Every minute every day I'm in, what where or when, You fill me in
And I'm always ready... Yeah I'm always ready
From the morning through the day and night
You catch me up, when where or what
And I'm always ready... Yeah I'm always ready
Ready for the set and go
Love the way you let me know
Ready with me everywhere
Love the way you take me there...

Yeah I'm always ready...
