

# I'm Morning Ready (Song 1)

Ya set me into motion  
Tell me all the good things going on here  
While the day's unfoldin  
You leave me with a big smile on my face  
While the coffee's flowing  
You're makin my everyday come to life  
And as long as you're on my side  
I know it's gonna be all right

I'm morning ready  
Ready for the 9 to 5  
I'm morning ready  
You make the first light sunlight come alive  
When I need to know what's happenin  
I've got you everywhere that I am  
I wake up and I love the way you start me  
Yeah I'm morning ready...

Ya bring a little sunshine  
Bring a little what I need to know right now  
Yeah ya give me all the headlines  
Get me all set for the new day ahead  
Then ya tell me bout the weather  
Tell me how the traffic looks drivin in  
And with you at the start of my day  
I can get in my ride and say....

When the daylight comes with a brand new sun  
And I'm on my way  
There ain't no doubt when I'm startin out  
You're the best part of my day

[Breakdown]

I'm morning ready  
Ready for the 9 to 5  
I'm morning ready  
Ready for the morning light

I'm morning ready  
Ready for the 9 to 5  
I'm morning ready  
You make the first light sunlight come alive  
When I need to know what's happenin  
I've got you everywhere that I am  
I wake up and I love the way you start me...

Yeah I'm morning ready  
Ready for the 9 to 5

I'm morning ready  
You make the first light sunlight come alive  
When I need to know what's happenin  
I've got you everywhere that I am  
I wake up and I love the way you start me...  
Yeah I'm morning ready...

## I'm Morning Ready (Song 2)

Oh the motion starts and we leave the dark  
And here we are with the burning light of another day  
And the world outside burst into life  
And it's feeling like everything's gonna go my way

And I know, and I know, yeah I know before this  
Town begins to move  
Bout' the traffic, the weather, the stories, whatever, yeah  
I can count on you

You're giving me everything I need and there's no guessing  
I count on you to start me in the right direction

From the minute that the sun breaks through  
Grey skies or blue, I turn to you and  
I'm morning ready, I'm morning ready  
From the very first sip of my cup,  
When, where, or what, you catch me up and  
I'm morning ready, I'm morning ready  
Ready for the set and go  
Love the way you let me know

Oh my mind is clear and I got no fear  
Cause I got you hear, you're with me everywhere I go  
Waking up with you it's more than news  
It's all you do that keeps me here out in the flow

And I know, yeah I know, oh I know before this  
World begins to move  
All the things that I need to make life easy yeah  
I can count on you

You're keeping me up on every single thing that happens  
It's good that I got you by my side right when it matters

From the minute that the sun breaks through  
Grey skies or blue, I turn to you and  
I'm morning ready, I'm morning ready  
From the very first sip of my cup,  
When, where, or what, you catch me up and  
I'm morning ready, I'm morning ready  
Ready for the set and go  
Love the way you let me know  
Ready for the journey in  
Ready for the day to begin

Yeah, I'm morning ready
